*Michael Gasior, founder of AFS Seminars LLC and one of the world's most knowledgeable speakers on the subjects of U.S. and global securities and securities markets, will teach all courses. He brings a wealth of experience to the discussions and incorporates a variety of his own textbooks, as well as The Wall Street Journal, into his teaching. These texts make the material easy to follow as well as providing a valuable resource for use as reference long after attending the program. Every program is taught in seminar format and student interaction is emphasized. Entertaining, educational and highly relevant videotapes, audiovisual materials and handouts are used in every class. All securities related programs qualify for significant CPE and CSOP Credit Hours.
